Education

Babu Banarasi Das University

B.Tech in Computer Science Engineering (Spec. in AI) | **CGPA: 7.0** (Upto 6th Sem)

Lucknow, UP

2023 – 2027

- **Key Coursework:** DBMS, Neural Networks, Data Structures & Algorithms

Technical Skills

- **Languages:** Python, Java
- **Web Development:** HTML/CSS, JavaScript, Render, Netlify, Vercel/Hosting
- **AI/ML:** MediaPipe, OpenCV, Neural Networks
- **Databases & Backend:** MySQL, Node.js, REST APIs
- **Tools:** Git, GitHub, VS Code, Antigravity IDE
- **Spoken Languages:** English, Hindi

Technical Projects

Project NETRA (Adaptive Traffic Management) | Python, YOLOv8, Computer Vision

[GitHub](#) | **2026**

- Engineered an adaptive traffic management system utilizing **YOLOv8** computer vision to dynamically prioritize emergency vehicles.
- Managed model training and logic implementation to analyze real-time video feeds for intelligent traffic routing.

AI Virtual Mouse | Python, MediaPipe, OpenCV

[GitHub](#) | **2026**

- Developed a gesture-controlled mouse interface leveraging **Python** and **MediaPipe** for hand-gesture-based cursor control.
- Implemented real-time hand tracking to replace physical mouse functions, integrating computer vision techniques via **OpenCV**.

HealthCare Portal | Python, Django, PostgreSQL, Vercel

[GitHub](#) | **2026**

- Engineered a full-stack healthcare management portal using **Django**, streamlining patient lifecycles, doctor scheduling, and pharmacy inventory.
- Developed robust modules including vital sign tracking, appointment workflows, and automated stock deduction backed by a **PostgreSQL** database.
- Deployed the server-rendered application to **Vercel**, utilizing Mangum for ASGI routing and WhiteNoise for static file serving.

Experience

Social Summer of Code

Open Source Contributor

Remote

June 2026 – July 2026

- Contributed to multiple open-source repositories by developing new features and resolving complex bugs using **Python** and **TypeScript**.

Elite Coders

Open Source Contributor

Remote

July 2026 – August 2026

- Engineered and optimized core components for **GitPhone** and **Crypto Viz**, successfully merging **20+** pull requests to enhance system functionality.

Achievements

- **Smart India Hackathon (SIH) 2025 Participant:** Competed in the prestigious national-level hackathon, engineering a solution for image-based breed recognition for cattle and buffalos of India.
